CREDIFON®. THE FASTEST, SIMPLEST POSTAGE RE-CREDITING SYSTEM

Instead of slow, cumbersome re-crediting systems that require long calls or even a trip to the post office, Neopost's Credifon® re-fills your machine with postage in just a few key-strokes, getting you back to business in seconds, 24 hours a day, 365 days a year. Just dial the number, punch in your pin, key in the value – it's as simple as that!

How Credifon® saves time and hassle

*Calls charged at £1.50 per minute. Calls should last no longer than 1 minute.

neopost IJ40

DIGITAL FRANKING MACHINE

- SAVE TIME USING DIFFERENTIAL WEIGHING
- ADD MARKETING MESSAGES TO YOUR ENVELOPES
- RE-CREDIT FROM YOUR DESK IN THREE EASY STEPS
- HANDLES UP TO 200 LETTERS PER DAY
- FROM EUROPE'S NO.1 IN MAILROOM SOLUTIONS

A desktop machine with **MAILROOM SPEED** and **CAPABILITY?**

It's simply a matter of **NEOPOST.**

Franking for the future that improves your image now?

IT'S SIMPLY A MATTER OF NEOPOST.

Compact, cost-effective

AND READY FOR THE FUTURE.

Neopost's IJ40 is compact and easy to use, yet it has many features of much larger machines to handle all your mailing needs.

An automatic label dispenser is included as standard and you can add Neopost's AutoFeed as your business grows.

Inkjet quality for that big business impression.

No more wobbly rows of stamps. No more queueing at the Post Office. No more fuzzy franking marks. IJ40's advanced inkjet technology produces a crisp, clear frank and a clean, positive message about your company.

You can also use your envelopes to sell. IJ40 will store up to ten customised marketing slogans and you can create your own text messages in an instant.

1 NO MORE 'guess the weight'

When faced with unusual packages, people often estimate the weight and can over-stamp – wasting money. IJ40 has an integrated electronic scale, so you can check the weight of envelopes and packages and the machine will automatically apply the correct postage. You can even save time weighing items using differential weighing – place a pile of different sized items on the scale and it will calculate the weight of each one individually as you send it for franking.

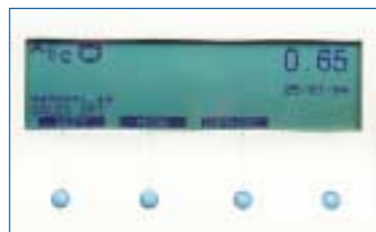

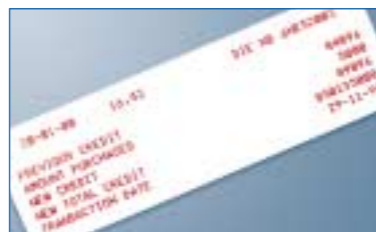

2 LOOK GREAT, sell more

IJ40 is 100% inkjet and 100% digital, which means superbly crisp, clean impressions and tremendous flexibility when adding logos and sales messages to your mail.

3 COULD YOU RE-CHARGE your postal costs?

If you need to re-charge postage costs, either to other departments or customers, IJ40 can help you do this. Accounting records can be printed onto franking labels or through an external printer.

4 ANYONE can use IJ40

It's easier to use than a photocopier, whether for a handful of envelopes or a big mailing run.

Five-job memories let you store regularly used settings, whilst automatically changing the date, thus eliminating postage waste.

5 THE SIMPLE SOLUTION to awkward shaped parcels

You don't even need stamps for large, irregular shaped packets and parcels – with its built-in label dispenser, IJ40 prints your impression onto a self-adhesive strip, making it easy to apply to your larger items.
